AUTHOR INDEX

This section contains the names of contributors, reviewers, and the authors of books, &c., reviewed or noticed. O signifies an Original Contribution, R a Review, and N a Notice. The titles of original contributions are in Roman type; the titles of reviews and notices are in italics.

Foreign titles. Under the name of the *original author* foreign titles of books, &c., reviewed or noticed are given in the original language. Under the name of the *reviewer* they are given in the original language followed by the English translation.

'Acorn', *see* Newnham, J. T.

Adams, W. R. *Studies in tolerance (to thinning) of New England forest trees.* Review by H. M. Steven . . . . . R ix. 162

Adkin, B. C. *Twelfth annual report of the Forestry Commission for the year ending September 30th, 1931.* . . . . . R vi. 195

Aldrich-Blake, R. N. A note on the influence of seed weight on plant weight . . . . . O ix. 54

— *Die Stoffbewegungen in der Pflanze (The movement of materials in plants)* by E. Munch . . . . . R v. 78

— *On the fixation of atmospheric nitrogen by bacteria living symbiotically in root nodules of* Casuarina equisetifolia . . . . . N vii. 70

— *Pot culture tests of forest soil fertility* by H. L. Mitchell . . . R ix. 75

— *Recent research on the root systems of trees* . . . . . R iii. 66

— Some factors influencing the increment of forests . . . . . O i. 82

— *Some observations on cambial activity and seasonal starch content in sycamore* (Acer pseudo-platanus) by G. Cockerham . . . . R v. 84

— *Studies in the physiology of cambial activity* by J. H. Priestley . . R v. 81

— Influence of nutrition on the relative root and shoot development of forest tree seedlings . . . . . O vi. 40

— Mechanism of control of relative root and shoot development . . O vii. 64

— *Plasticity of the root system of Corsican pine in early life.* Review by J. H. Priestley . . . . . R v. 80

— *Rooting of woody cuttings considered from the standpoint of anatomy* by Sledge . . . . . R v. 83

— *Structure and life of forest trees* by T. Thomson . . . . . R iii. 144

— *Unsere Kenntnis von Forstsaatgut (Our knowledge of forest seed quality)* by W. Schmidt. . . . . R v. 166

Alexander, J. B. *Effect of rate of growth upon the specific gravity and strength of Douglas fir.* Review by C. B. Pettifor . . . . . R x. 173

— *Strength of Douglas fir telephone poles.* Review by J. Latham . . R x. 174

Anderson, M. L. *Natural woodlands of Britain and Ireland.* Review by W. L. Taylor . . . . . R vi. 202

Andrews, G. S., and Trorey, L. G. *Use of aerial photographs in forest surveying.* . . . . . N viii. 87

Anon. Relationship between silviculture and the utilization of timber (1st Annual excursion of the Society of Foresters of Great Britain, 1928) O iii. 13

Anon. *Report of the Committee on the Mechanical Testing of Timber* . N viii. 170
— Forestry Sub-Section of the British Association meeting, South Africa, 1929 . . . . . O iii. 142
— 2nd Annual excursion of the Society of Foresters of Great Britain, 1929 O iii. 85
Armstrong, F. H. Further tests on the effect of progressive decay by *Trametes serialis* Fr. on the mechanical strength of the wood of Sitka spruce . . . . . O ix. 62
— *see also* Latham, J.
Arthur, J. C., *et al. Plant rusts* (*Uredinales*). Review by W. R. Day . R iv. 60

Badoux, H. *Le pin Weymouth en Suisse*. Review by H. M. Steven. . R iii. 147
— *Les essences forestières exotiques en Suisse*. Review by H. M. Steven . R vii. 164
Bailey, I. W., and Spoehr, H. A. *Role of research in the development of forestry in North America*. Review by H. M. Steven . . . R iii. 145
Baker, F. S. *Theory and practice of silviculture*. Review by H. M. Steven R viii. 168
Bamford, K. F. *Starch and related polysaccharides of certain hardwoods. I. The preparation and properties of oak and walnut starch* by W. G. Campbell. . . . . R ix. 160
Bancroft, H. *Anatomie de la feuille chez les pins maritimes* (*Anatomy of the leaf in Maritime pines*) by V. Fieschi . . . . . R vii. 68
— *Investigations on the morphology and comparative history of development of foliar organs. IV. The prophyll of* Carya Buckleyi *var.* arkansa by A. S. Foster . . . . . R vii. 67
Barbey, A. *A travers les forêts de pinsapo d'Andalousie*. Review by H. M. Steven . . . . . R v. 90
Barton, L. V. *Storage of some coniferous seeds*. Review by H. M. Steven . R x. 95
Benson, A. B., *see* Deen, J. L.
Bezemer, T. J. *Dictionary of terms relating to agriculture, horticulture, forestry, cattle breeding, dairy industry and agriculture in English, French, German, and Dutch* . . . . . N ix. 79
Bourne, R. *Preliminary survey of the forest types of India and Burma* by H. G. Champion . . . . . R x. 175
— *Text-book on forest management* by M. R. K. Jerram. . . . R x. 86
— *Aerial survey in relation to the economic development of new countries with special reference to an investigation carried out in Northern Rhodesia* . N iii. 77
— *British beechwoods* by A. S. Watt and A. G. Tansley . . . R vi. 188
— *Die pflanzengeographisch-ökologischen Grundlagen des Waldbaus* (*The plant geographical-ecological foundations of silviculture*) by K. Rubner R viii. 160
— *Grundlegung einer forstlichen Betriebslehre* (*Underlying principles of forest management*) by C. Wagner . . . . . R ix. 159
— *Regional survey and its relation to stocktaking of the agricultural and forest resources of the British Empire*. Review by W. H. Guillebaud . R vi. 95
British Wood Preserving Association, *Journal of*
Vol. iii, 1933 . . . . . N vii. 167
Vol. iv, 1934 . . . . . N viii. 170
Brooks, C. C. Some forest pests in bilberry areas. . . . . O iv. 105
Brown, H. P., and Panshin, A. J. *Identification of the commercial timbers of the United States* . . . . . N ix. 78
— *see also* Pearson, R. S.

Brown, N. C. *General introduction to forestry in the United States.* Review by W. L. Taylor . . . . . R x. 86
— *Logging-transportation.* Review by A. H. Lloyd . . . . . R x. 88
Bruce, D., and Schumacher, F. X. *Forest mensuration* . . . . . N ix. 78
Brückner, E., and Bujakowsky, W. *Heidebekämpfung in Nadelholzkulturen mit ungeöltem Kalkstickstoff und Hederich-Kainit* (*Staub-Kainit*). Review by A. B. Stewart . . . . . R x. 94
Bryan, J. Methods of applying antiseptics . . . . . O vi. 75
— *Preliminary report on the creosoting of Douglas fir sleepers* . . . N v. 91
Büchner, P. *Holznahrung und Symbiose.* Review by R. N. Chrystal . R ii. 130
Bujakowsky, W., *see* Brückner, E.
Burger, H. *Holz, Blattmenge und Zuwachs.* I. *Die Weymouthsföhre.* Review by H. M. Steven . . . . . R iii. 147
Burke, H. E., *see* Doane, R. W.
Burtt Davy, J. Male trees of *Salix alba* var. *caerulea* . . . . . O ix. 58
— *Our catkin-bearing plants. An introduction* by H. Gilbert-Carter . R v. 89
— *Révision du genre* Abies (*Revision of the genus* Abies) by H. Gaussen and Th. Viguie . . . . . R v. 89
— Two suggested *Nomina ambigua* . . . . . O x. 166
— *Une nouvelle espèce de sapin* (*A new species of Silver fir*) Abies pardei *Gaussen* by H. Gaussen . . . . . R v. 90
— *see also* Chalk, L.

Cajander, A. K. *Theory of forest types.* Review by A. S. Watt . . R i. 122
Cameron, A. E. Present status of the Douglas fir woolly aphis (*Adelges cooleyi* Gillette) in Britain . . . . . O x. 133
Campbell, W. G. Chemical approach to the study of wood preservation O vi. 82
— *Chemistry of Australian timbers*, Part I. *A study of the lignin determination* by W. E. Cohen and H. E. Dadswell . . . . . R vi. 102
— *Starch and related polysaccarbides of certain hardwoods.* I. *The preparation and properties of oak and walnut starch.* Review by K. F. Bamford R ix. 160
— *see also* Cartwright, K. St. G., *et al.*
Cann, F. R., *see* Fisher, R. C., *et al.*
Cartwright, K. St.G. Toxicity of preservatives against wood-destroying fungi O v. 138
— and Findlay, W. P. K. *Principal rots of English oak.* . . . . N x. 181
— *et al. Effect of progressive decay by* Trametes serialis *Fr. on the mechanical strength of the wood of Sitka spruce.* Review by W. R. Day . . R v. 169
Chalk, L. *Commercial timbers of India* by R. S. Pearson and H. P. Brown R vi. 186
— *Home-grown timbers, their anatomical structure and its relation to physical properties. Elm* by S. H. Clarke . . . . . R iv. 135
— *Identification of the timbers of temperate North America* by S. J. Record R viii. 165
— Multiperforate plates in vessels, with special reference to the Bignoniaceae . . . . . O vii. 16
— *Formation of spring and summer wood in ash and Douglas fir.* Review by S. H. Clarke . . . . . R iv. 61
— Tracheid length with special reference to Sitka spruce (*Picea sitchensis* Carr.) . . . . . O iv. 7
— and Rendle, B. J. *British hardwoods: their structure and identification.* Review by S. H. Clarke . . . . . R iii. 146

Chalk, L. *et al. Fifteen South African high forest timber trees* . . . N ix. 166
— *Forest trees and timbers of the British Empire. I. Some East African Coniferae and Leguminosae.* Review by H. M. Steven . . . R vi. 100
Chamberlin, W. J., *see* Doane, R. W.
Champion, H. G. *A preliminary survey of the forest types of India and Burma.* Review by R. Bourne . . . . . R x. 175
— *Regeneration and management of Sal* (Shorea robusta *Gaertn. f.*). Review by A. Rodger . . . . . R viii. 83
— Silvicultural research in India, its organization, problems, and methods O iii. 104
— *Importance of the origin of seed used in forestry.* Review by H. M. Steven R vii. 69
— *Measurement of standing sample trees.* Review by J. Macdonald. . R viii. 163
— and Mahendru, I. D. *Silvicultural research manual for use in India.* Review by H. M. Steven . . . . . R vi. 97
— and Pant, B. D. *The use of stumps (root and shoot cuttings) in artificial regeneration* . . . . . N vi. 206
Chaplin, C. J., *see* Cartwright, K. St. G., *et al.*
Chard, J. S. R. *British animal tracks.* . . . . . N x. 179

SUBJECT INDEX

This section contains the titles of original contributions, and books, &c., reviewed or noticed.

The titles of original contributions are in Roman type; the titles of reviews and notices are in italics but are not otherwise differentiated.

Foreign titles are indexed as a rule under their English equivalents.

Abies pardei, *a new species of Silver fir* . . . . . v. 90
Abies pinsapo, *Forests of, in Andalusia* . . . . . v. 90
Abies, *Revision of* . . . . . v. 89
Acer pseudo-platanus, *see* Sycamore.
Adaptation, Storm damage and . . . . . vii. 59
Addresses to the Society, *see* Society of Foresters of Great Britain.
Adelges cooleyi Gillette, *see* Douglas fir woolly aphis.
Aerial photographs, Use of, in forest surveying . . . . . viii. 87
Aerial survey in relation to the economic development of new countries . iii. 77
Aesthetic considerations in British forestry . . . . . i. 53
Afforestation in New Zealand . . . . . x. 23
Afforestation in the Lake District . . . . . x. 180
Afforestation in South Africa . . . . . iii. 124
Afforestation, Use of Sitka spruce in British . . . . . v. 93
Africa, East: some Coniferae and Leguminosae . . . . . vi. 100
Aims and methods in the study of vegetation . . . . . i. 122
American Foresters, Society of . . . . . iv. 130
American forests, Management of . . . . . ix. 76
Analysis of mineral constituents in certain forest soils in north-east Scotland x. 149
Anatomical structure and mechanical strength in English ash, Relation between . . . . . ix. 132
Anatomical structure of elm timber . . . . . iv. 135
Anatomical studies of timbers, Use of the projection apparatus in . . iv. 40
Anatomy and physiology of growth zones and annual rings in the tropics . ii. 127
Anatomy of the leaf in Maritime pines. . . . . vii. 68
Anatomy of wood, Conference on . . . . . iv. 128
Andalusian forests of Abies pinsapo . . . . . v. 90
Animal tracks . . . . . x. 179
